Folks don’t look just once at the Wooldridge 23’ Super Sport Offshore Pilothouse. They look and then look again…and again. There’s lots to see and admire in this Wooldridge and it takes more than a single glance to recognize just how cleverly Glen and Grant Wooldridge tucked big boat features into this 23-footer.

It is obvious at first glance that this boat is made for the open water. The deep “V” forward (40 degrees deadrise) is ready to break up the offshore chop and the impressive “V” continues through the planing surface (18 degrees deadrise) for a combination of ride and stability that pleases.

The beefy offshore bracket with a displacement box further enhances the exceptional ride and stability. This 23’ Pilothouse is equally at home with single or dual outboards. And the combination of length and beam (8 1/2’) create a boater’s package that’s user friendly on the road and on the waterways.

Minimal fuel consumption with optimum performance is the Wooldridge way and once again it is emphasized in this 23’ SS Pilothouse. Fact is, it’s hard to believe this 23-footer is so user-friendly when it comes to power (on the transom and in the tow vehicle) and at the fuel pump. Go more and spend less!

You can outfit this Wooldridge Super Sport Offshore Pilothouse with everything including the kitchen sink. Turn the page to check out several photos that illustrate how it all comes together in this 23’ Pilot.

Visibility is excellent, in the all welded pilothouse cabin (three-panel, reverse angle windshield with parangaph wipers). There is plenty of room in the cuddy for comfortable sleeping and lounging. Windows are Diamond Sea Glaze and they’re sliders in the cuddy and main cabin.

Check out the forward walk-around, bow rails, huge transom fish box, locking rod locker doors and 97 gallon fuel tank, standard. Of course steering is hydraulic. Standard features are extensive as detailed on the back page.

When it comes to options, the full pilothouse package is the most popular. It includes the 3’ wide dinette with flip-flop backrest which makes into bed (7’-plus), large cabinet with built-in electric fridge, diesel stove/heater, and freshwater sink with electric pump. Of course there’s more, custom tailored to individual wants and needs: private stand-up head, transom door, radar, full electronics, pot pullers…you name it.

Of course, this boat is all-welded aluminum and carries a lifetime limited hull warranty to the original buyer.

The Wooldridge 23’ SS Offshore Pilothouse is a boat ready to create great times on the water!

SPECIFICATIONS

| Length | 23’ 3" |
